Herewith we confirm that

Oriental Construction Company Ltd
Building and Civil Engineering Contractors
P.O.Box 48364
Nairobi / Kenya

has completed the project "Water Supply Program Arusha – Phase II, Nduruma Source Development" successfully.

The project was financed by KfW (German Development Bank) and the Client, Arusha Urban Water Supply and Sewerage Authority. The total contract amount was about 960,000 EURO, the contract value for construction works performed by Oriental Construction Company was about 710,000 EURO.

The main project components which have been constructed by Oriental Construction Company are as follows:

- a. Raw Water Intake at Nduruma, including wears, valve chamber, and various miscellaneous structures, with a total capacity of about 60l/s
- b. Nduruma raw water gravity main, DN 250 steel pipes, with a length of about 1900m.
- c. Midawe – Ngulelo clear water gravity main, DN 300 steel pipes, with a length of about 6400m
- d. Construction of Break Pressure Chambers
- e. Construction of a circled reservoir with a capacity of 1000 m³.
- f. Construction of a treatment plant, including rapid mixer, a chlorination plant, operators dwelling, guard house, pump house (with clear water pump), septic tank, and miscellaneous structures.
- g. Completion of 700m DN 300 steel pipe within the town.
