**RIFT VALLEY WATER SUPPLY AND SANITATION PROJECT.  
NAKURU WORKS.  
CONTRACT NOS. RVWSB/WC/01, RVWSB/WC/03 AND RVWSB/WC/04**

This is to certify that Messers Oriental Construction Company Limited of P.O.Box 48364-00100 Nairobi, Kenya, were the appointed construction contractors for the above-mentioned project, which was financed by the Government of Kenya and the African Development Fund (ADB-ADF) between 2006 and 2010.

This project total cost of USD 16 million improved (rehabilitated and augmented) the water supply and sanitation infrastructure in Nakuru town, which is the fourth largest urban centre in Kenya with a population of over 700,000 people. Out of this USD 11 million was the tender amounts towards Messers Oriental Construction Company Limited executed contracts.

The scope under this project executed by Messers Oriental Construction Company Limited comprised the following works and goods:

- Augmentation of Bulk Water Supply from Olobanita Wellfield (DN 200-400 pipe manifold 5.6 km, 500m<sup>3</sup> reservoir, pump station 4,6 km long pumping main DN 450, 2500m<sup>3</sup> RC reservoir, 16.5 km gravity main DN 450, electrical works, offices & houses).
- Extensions and Improvements to Water Distribution Network (50 km of DN 63-400) and Sanitation Drains (10km of DN 160-600)
- Rehabilitation of Bulk Transmission Mains from Mereroni, Kabatini and Baharini, Installation of Bulk Water Meters and Ancillary Works (rehabilitate 19.4 km of DN 250 gravity main and existing conventional treatment works, new 7.5 km transfer main of DN 400, install 15,800 water meters).
- Construction of Administration Building and Ancillary Works.
- Procurement of vehicles, motorbikes, valves and office equipment.

The services were successfully completed to our full satisfaction, the financier's appreciation and there was a throughout positive cooperation between the Client and the Contractor.

Yours faithfully,

Eng. Japheth Mutai  
**CHIEF EXECUTIVE OFFICER**
